how\\_to\\_submit\\_an\\_abstract.html](http://meetings.copernicus.org/egu2012/abstract_management/how_to_submit_an_abstract.html)

The 2012 European Geosciences Union will be organised in Vienna on 22-27 April 2012. Within the area of hydrological sciences, we invite you to participate in the session on “Climate change and water infrastructure”

The objective of this session is to analyse the impacts on water infrastructure due to changing climatic conditions. Abstracts considering the operation, design and modification of water infrastructure are particularly welcomed. For more information, please contact Dr. Maria Naranjo, e-mail: [maria.naranjo@imdea.org](mailto:maria.naranjo@imdea.org)
